

MY WORK

SIRAPHAT NINPRASERT

FULL-STACK DEVELOPER

SUMMARY

Full-Stack Developer with expertise in Next.js/Node.js ecosystem, database optimization, and legacy-to-modern architecture migration. Proven track record of delivering end-to-end solutions, reducing system bottlenecks, and implementing zero-downtime deployment pipelines.

EDUCATION

King Mongkut's University of Technology Thonburi (KMUTT)

- Major: Applied Computer Science
- GPAX : 3.68/4.00
- Relevant Coursework: Object-Oriented Programming, Data Structures, Algorithms And Complexity, Database System, WebProgramming, ComputerNetwork, Artificial Intelligence, E-commerce, Image Processing

EXPERIENCE

■ Full-Stack Developer at Sino-Pacific Trading July 2025 - Present

- Architecture & Production Management: Solo-developed 9 enterprise apps from design to production. Established scalable backend foundations, standardized coding patterns, and enforced strict code quality.
- Centralized Ecosystem (Control Hub & connect.sino): Engineered a centralized hub to unify enterprise services. Overhauled legacy security by implementing a strict RBAC architecture for seamless permission management.
- System Modernization (Store Compliance): Migrated a legacy PHP reporting system to a Next.js/Node.js stack with hybrid DB routing (MySQL/Oracle), drastically reducing complex query times from minutes to seconds.
- DevOps & CI/CD Pipelines: Managed production environments and Git version control. Established automated, zero-downtime CI/CD deployments utilizing Nginx, PM2, and Docker.

■ Internship SCGC June - September 2024

- Served as both Data Analyst and System Analyst, analyzing data and designing schema for a new SCGC product.
- Developed a Nitrogen Consumption Record Application, automating data entry, processing, and reporting – reducing manual effort by 55%.
- Built and maintained data pipelines to enable annual data retrieval and analysis.

■ Lead Developer - SeaNior Web Platform February 2025

- Led full-cycle development of SeaNior Platform, covering requirements gathering, system design, frontend, and database architecture.
- Managed code reviews and merging; released key features for user testing with iterative improvements based on feedback.

AWARD

■ LawyerNearU - 2nd place at NSC Thailand August 2024

- Led the development of LawyerNearUProject. (5-person team)
- Designed API architecture, defining key system structures.
- Designed and translated UX/UI concepts into technical specifications
- Full-stack development experience (Django)

■ Automatic instruments detection - Green Innovation Awards July 2024

- Awarded for pitching and successfully implementing an innovative "Automatic instruments detection" to detect pipes in work plans.
- Designed to reduce workload and promote paperless operations

- 👜 My Portfolio : louis-portferlio.vercel.app

SKILLS

- **UX/UI Design:** User Experience Principles & Responsive Design, Figma
- **Programming Languages:** TypeScript, JavaScript, Python, SQL
- **Frontend:** Next.js, React, Tailwind CSS, Vite, Bootstrap
- **Backend:** Node.js, Express, Nest.js, Django
- **Database:** MySQL, Oracle, MongoDB, NoSQL
- **Microsoft Power Platform**
- **System Design & Solution Architecture**
- **Cloud Solutions** (Azure, Google Cloud)
- **Developer Tools:** Git (Version Control), Postman
- **SRS Documentation**
- **DevOps & Infrastructure:** Linux (Ubuntu), Nginx, PM2, Docker, CI/CD

LANGUAGES

- Thai (Native)
- English (Intermediate)
- Japanese (Beginning)
